**2023 ANNUAL REPORT**

**Health Equity:**  
Our Focus for  
All Lives to Thrive

Jonathan Levy, Nicole Bolufe and Owen O'Neill at the Cribs for Kids luncheon.

**At Clinics Can Help, our mission to redistribute surplus medical equipment and supplies to children and adults in need has never been more critical.** From babies without a safe crib to sleep in at night to seniors unable to afford essential equipment for their mobility and comfort, our work ensures that anyone who needs essential medical equipment for their care can access it easily and economically.

If a barrier to equipment prevents a child or adult from achieving their greatest health, mobility and independence, we take pride in tearing that barrier down. It's your generous support of Clinics Can Help that is creating health equity in Palm Beach County and other communities we proudly serve. Together, we are equipping individuals and communities to thrive in health and healing.

As Florida's largest not-for-profit organization recycling and reusing medical equipment, we are thrilled to share these 2023 standout achievements:

- **Assisted 757 children** in need of medical equipment and supplies that their families would not otherwise be able to afford.
- **Supported 2,563 adults** with essential medical equipment and supplies they couldn't afford on their own.
- Completed **7,040** client visits, **providing \$2.7 million** worth of medical equipment and supplies.

Our growth continues to meet the increasing demand for our services, which has been expanding by over 8% annually. This progress reflects the dedication of our board, staff and volunteers, as well as the generosity of our donors and partners, like you.

**The impact of our work goes beyond numbers.** We're building hope, providing dignity, and improving lives throughout South Florida. From young children to the elderly, our clients receive the equipment they need to enhance their quality of life and participate more fully in their communities.

As we look to the future, we remain committed to our goal of dramatically improving the everyday lives of people in our community. **Together, we're not just recycling medical equipment – we're creating ability.**

**Thank you for your continued support and belief in our mission.**

Owen O'Neill

Board Chair

# 2023 Health Equity Highlights

## Our Reach Builds Greater Health Equity

We are proud to serve many diverse communities throughout Palm Beach County and beyond, working with an extensive network of partners including free clinics, local hospitals, and more than 20 medical agencies in Palm Beach County alone.

## Quality Control Survey 2023:

- **98% of clients were satisfied with the equipment they received**
- **100% said the medical equipment improved their quality of life**
- **88% would not have been able to afford the equipment on their own**

## 5,000 Children on the GO

Since its inception in 2011, the **KINDER Project** has transformed the lives of nearly 5,000 children, providing crucial equipment allowing them to develop to their potential and participate more fully in school, life and fun.

### In 2023, our KINDER Project assisted 757 children by providing:

- 501 new Pack N Play cribs
- 113 adaptive strollers
- 89 braces
- 36 adaptive pediatric shower chairs
- 29 pediatric wheelchairs
- 25 pediatric posterior walkers
- 5 P pod positioning chairs

## Total Community Impact in 2023

- **3,320** lives supported with safety, comfort and mobility
- **\$2,700,000** in medical equipment and supplies recycled and shared
- Distributed **976** wheelchairs, **703** walkers and **382** home hospital beds

*"Clinics Can Help has changed our lives and we will continue to be grateful. Thank you for helping so many in our area."* **Mary Smith**
