Equipped To Care

Annual Report

2025

A Message from our CEO and Board Chair

Dear Friends,

As we celebrate our 21st anniversary, we would like to thank everyone who has supported our mission to ensure that every child and adult in our community can have access to the medical equipment and supplies they need for their recovery, mobility, independence and dignity! By employing a model of focused recycling, we provide a cost-effective method to increase access to health equity.

Over the past 21 years, we have assisted almost 35,000 people by providing almost $20 million worth of medical equipment and supplies. Our CRIBS Project (Cribs R for Infant Baby Safety) has provided over 6,000 new cribs to date.

We always knew we couldn't do it alone. We would like to take this moment to say thank you to all our donors, our board members, our staff and our volunteers for helping to make our mission possible!

We hope that you will continue to support our work for the next 21 years so we can bridge the gap between surplus and need and make healthcare accessible to all.

Overview of Programs

LENDING CLOSET

The Lending Closet provides medical equipment and supplies to those in Palm Beach County who need it most. We welcome donations of new and gently used medical equipment and supplies including wheelchairs, hospital beds, oxygen concentrators and nebulizers and so much more. We then clean, refurbish and repurpose the medical equipment, making it available to those who would otherwise be unable to secure items for themselves. We also accept unopened, unused supplies such as wound care and incontinence items.

KINDER PROJECT

The Kinder (Kids in Need of Durable Equipment Right Now) Project provides adaptive durable medical equipment at no cost to families of children with special needs. These items are vital to providing mobility, independence, and the opportunity for children to live their best lives. Monies from our Annual Golf Classic, along with specific grants and donations, support the KINDER Project.

C.R.I.B.S PROJECT

Initiated in 2010 in response to an increasing Infant Death Rate, the C.R.I.B.S. (Cribs R for Infant Baby Safety) Project provides new Pack N' Play cribs to families of infants and newborn children who cannot afford to provide a safe place for their babies to sleep. In collaboration with local nonprofits that provide families with safe sleeping education, we have provided over 6,000 new cribs to date. Generous gifts from the Law Enforcement Trust Fund and Admirals Cove and our CRIBS for Kids Luncheon have made this program possible.

MOBILE UNIT

We now can deliver medical equipment and basic education to children and adults who are not able to access our service due to lack of appropriate transportation. Working with Impact The Palm Beaches, Ibis Foundation and Leadership Palm Beach County, we have been able to expand our service to the Western Communities by over 400%.

86% simply would not have been able to afford the medical equipment if we had not provided it.

100% said the medical equipment improved their quality of life.

98% of clients were satisfied with our service.

INTERNATIONAL RELIEF

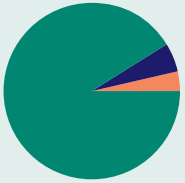

In the past twelve months CCH has provided medical relief and supplies to five separate Caribbean nations with the help of international relief agencies such as Medshare and Food for the Poor.

Financial Summary

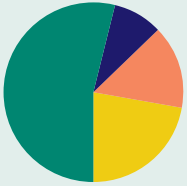

2025 on average, to administer cash gifts (non gifts-in-kind) donated for current use, Clinics Can Help charged 4% for fundraising, 5% for management and general administration, and 91% went to program development and public policy support.

"Many people don't realize how essential — and at times, how difficult — it can be to access the right medical equipment. We were once in that position. But we quickly came to understand just how critical it is to have the proper support, and that's when this amazing organization stepped in. From the moment we reached out, Clinics Can Help was there for our family. Because of their support, our child hasn't missed a single day of school and recovered more quickly than we ever imagined."
